

Hello,

Can we level with you? So many of these new fin tube suppliers have NO CLUE what they're doing. They've only recently entered the market. *A surprising number practically build tubes out of a trailer.*

Yet it's their responsibility to build you the perfect tube. SO MUCH DEPENDS on it. That thinly layered pipe *is all that stands between you and CATASTROPHIC disaster.*

**What's the key to getting it right? Work with a manufacturer who's experienced and quantifiably tested. It's impossible to overstate how critical this selection process is.**

### Our FREE GUIDE to Supplier Assessment

But don't worry — we've got you covered. **Our FREE E-Book, *Will Your Fin Tube Supplier Deliver? 7 Questions You Need to Answer*, explains everything you need to ask your provider, and yourself, in order to build the perfect fin tube.**

With our [FREE GUIDE](#), you'll learn how to:

- Test your manufacturer's expertise to deliver on quality.
- Proactively plan a fin tube project for smoother and more efficient builds.
- Know if your manufacturer tests for conformity and can ensure tube efficiency.

- Separate the shysters from the craftsmen & achieve a perfect quality build.

Let's be clear — **getting this right can make or break the success of your project.** Our FREE GUIDE *could very well be your first class ticket to fin tube happiness.*
